Recommended Citation

The Rockefeller University, "1924-1925" (1925). *Semiannual List of the Publications of the Staff of the Rockefeller Institute*. 8.
<https://digitalcommons.rockefeller.edu/semiannual-publications-rockefeller-institute/8>

This Book is brought to you for free and open access by the Campus Publications at Digital Commons @ RU. It has been accepted for inclusion in Semiannual List of the Publications of the Staff of the Rockefeller Institute by an authorized administrator of Digital Commons @ RU. For more information, please contact mcsweej@mail.rockefeller.edu.

Results of the investigations conducted at The Rockefeller Institute for Medical Research, or elsewhere under its grants, are first reported in a variety of journals and publications. The Semiannual List, of which this is No. 18, gives the place of publication of the most recent reports of these investigations. It will be sent regularly upon request.

SEMIANNUAL LIST OF THE PUBLICATIONS OF THE STAFF OF THE ROCKEFELLER INSTITUTE FOR MEDICAL RESEARCH.

NOVEMBER 1, 1924, TO MAY 1, 1925.

PATHOLOGY AND BACTERIOLOGY.

BRONFENBRENNER, JACQUES J. Further studies on so called bacteriophage.

Proc. Soc. Exp. Biol. and Med., November 19, 1924, xxii, pp. 81-82.

†— and KORB, CHARLES. Studies on the bacteriophage of d'Hérelle. I. Is the lytic principle volatile? *Jour. Exp. Med.*, January 1, 1925, xli, pp. 73-79.

— and REICHERT, P. The flocculation of *botulinus* toxin antitoxin mixtures. *Proc. Soc. Exp. Biol. and Med.*, April 15, 1925, xxii, pp. 391-393.

†— and STRAUB, ELMER L. The influence of the "diaplyte" antigen of Dreyer on tuberculosis of the guinea pig. *Jour. Exp. Med.*, February 1, 1925, xli, pp. 257-274.

*BROWN, WADE H., PEARCE, LOUISE, and VAN ALLEN, CHESTER M. Studies based on a malignant tumor of the rabbit. VI. Variations in growth and malignancy of transplanted tumors. Part 1. Results of transplantation for the first twenty generations. *Jour. Exp. Med.*, November 1, 1924, xl, pp. 583-602.

†COWDRY, E. V. The occurrence of *Rickettsia*-like microorganisms in adult "locusts" (*Tibicen septendecim* Linn.). *Biol. Bull.*, January, 1925, xlviii, pp. 15-18.

DIETERICH, FREDERICK H. The filterability of *Leptospira icteroides* in culture. *Am. Jour. Trop. Med.*, November, 1924, iv, pp. 553-555.

†DRURY, DOUGLAS R. Studies on the total bile. VII. Conditions influencing the calcium content of the bile. *Jour. Exp. Med.*, December 1, 1924, xl, pp. 797-815.

* To be published in *Studies LII*. † To be published *Studies LIII*.

- †ELMAN, ROBERT, and McMASTER, PHILIP D. Studies on urobilin physiology and pathology. I. The quantitative determination of urobilin. *Jour. Exp. Med.*, April 1, 1925, xli, pp. 503-512.
- FLEXNER, SIMON. T. Mitchell Prudden, 1849-1924. *Science*, November 7, 1924, lx, pp. 415-419.
- . Virus encephalitis in the rabbit. *Proc. Nat. Acad. Sc.*, January, 1925, xi, pp. 84-87.
- †— and AMOSS, HAROLD L. Contributions to the pathology of experimental virus encephalitis. I. An exotic strain of encephalitogenic virus. *Jour. Exp. Med.*, February 1, 1925, xli, pp. 215-231.
- †— and — . Contributions to the pathology of experimental virus encephalitis. II. Herpetic strains of encephalitogenic virus. *Jour. Exp. Med.*, February 1, 1925, xli, pp. 233-244.
- †— and — . Contributions to the pathology of experimental virus encephalitis. III. Varieties and properties of the herpes virus. *Jour. Exp. Med.*, March 1, 1925, xli, pp. 357-377.
- †GATES, FREDERICK L. On the survival of *Bacterium typhosum* intraperitoneally implanted in collodion sacs. *Jour. Bact.*, January, 1925, x, pp. 47-52.
- GRANT, J. H. B., and GATES, FREDERICK L. Some factors affecting the levels of the serum calcium and phosphorus of normal rabbits. *Proc. Soc. Exp. Biol. and Med.*, March 18, 1925, xxii, pp. 315-317.
- †LANDSTEINER, K., and MILLER, C. PHILIP, JR. On individual differences of the blood of chickens and ducks. *Proc. Soc. Exp. Biol. and Med.*, November 19, 1924, xxii, pp. 100-102.
- and VAN DER SCHEER, JAMES. On the antigens of red blood corpuscles. *Proc. Soc. Exp. Biol. and Med.*, November 19, 1924, xxii, pp. 98-99.
- and — . Flocculation reactions with hemolytic immune sera. *Proc. Soc. Exp. Biol. and Med.*, December 17, 1924, xxii, p. 170.
- †— and — . On the antigens of red blood corpuscles. The question of lipid antigens. *Jour. Exp. Med.*, March 1, 1925, xli, pp. 427-437.
- , — , and WITT, DAN H. Group specific flocculation reactions with alcoholic extracts of human blood. *Proc. Soc. Exp. Biol. and Med.*, February 18, 1925, xxii, pp. 289-291.
- †McMASTER, PHILIP D., and ELMAN, ROBERT. Studies on urobilin physiology and pathology. II. Derivation of urobilin. Relation of the bile to the presence of urobilin in the body. *Jour. Exp. Med.*, April 1, 1925, xli, pp. 513-534.

† To be published in *Studies LIII*.

* To be published in *Studies LII*.

‡ To be published in *Studies LIV*.

† To be published in *Studies LIII*.

The papers marked *, †, ‡, and all similar reports from the Institute are ultimately assembled in a series of volumes entitled **Studies from The Rockefeller Institute for Medical Research**. The price is \$2.00 per volume. A special rate of \$1.00 per volume is made to those who subscribe to *The Journal of Experimental Medicine*, *The Journal of Biological Chemistry*, or *The Journal of General Physiology*.

Other publications of The Rockefeller Institute are:

The Journal of Experimental Medicine, edited by **Simon Flexner, M.D.**, and **Peyton Rous, M.D.**

The Journal of Biological Chemistry, edited by **Stanley R. Benedict, Henry D. Dakin, Lafayette B. Mendel**, and **Donald D. Van Slyke**.

The Journal of General Physiology, edited by **W. J. Crozier, W. J. V. Osterhout**, and **John H. Northrop**.

DIVISION OF PUBLICATION
THE ROCKEFELLER INSTITUTE FOR MEDICAL RESEARCH
AVENUE A AND 66TH STREET
NEW YORK, N. Y.

Results of the investigations conducted at The Rockefeller Institute for Medical Research, or elsewhere under its grants, are first reported in a variety of journals and publications. The Semiannual List, of which this is No. 19, gives the place of publication of the most recent reports of these investigations. It will be sent regularly upon request.
